15. Specific Regulations

No car may use more than two additional auxiliary lights, over and above that provided by the manufacturer of the car when supplied new. Any additional lights must be put beyond use for the duration of the event. Light Pods are not allowed on IDMC 12 Car Rallies. R18.5.5 applies which does not permit the use of LED or Gas discharge Auxiliary lights.

16. Format of the Event

The route will be approx **50 Miles** on public roads. The event uses Landranger 1:50,000 map numbers **99 & 104**.

The correct route shall be the shortest route between controls, avoiding blackspots and complying with the route instructions.

Maximum lateness is 15minutes and 59 seconds that means if you are more than 15minutes 59 seconds late at any control you will be outside your total lateness (OTL) and deemed not to have visited the control. All controls will close after the last car is OTL. On the regularity sections intermediate controls may be timed to the minute or second with distances measured to a tenth of a mile. The average speed for all sections will not be any higher than 30MPH, you should endeavour to maintain the correct speed at all times on the regularity sections. The controls within the regularity section will be secret and the instructions will not provide the location. The organisers times and mileage will be deemed to be correct. All starters will be classified as finishers unless excluded from the event. As there is not half way halt on this event you are not able to make up any lost time with receiving a penalty.

Main Time Control (MTC) Situated at the start venue and the finish. Ensure you leave on the time indicated on your time card.

Neutral Time Control (NTC) Situated at the end of a neutral section and the start of the next competitive section. You will not be penalised for being late at an NTC, but due to the nature of these sections you must not complete them in less time than your allowed time. The penalty for arriving early is 30 minutes so be extra careful please.

Intermediate Time Control (IRTC) (IRTC) These controls are 'secret' as the location will not be given in the route instructions. They will be located on the correct route. You have to maintain an average speed as described in the instructions between these controls and you will be timed to when you stop in the control at the marshal's position. You must not stop or appear to have stopped within sight of these controls. You are not allowed to recover any time between IRTC's without penalty.

Route Check (RC) These will be unmanned checks to ensure you are traversing the correct route. You will be required to record the information on your Time Card, they may be code boards like a registration plate, signposts, road signs or any other type of information the

organisers deem applicable. Record the required information in the appropriate space on your Time Card and obtain a signature for the item at the next manned control. The penalty for missing an RC will be 5 Minutes.
